There is NO SMOKING in the Hilton Sea Hawk

---

---

## Appeals Committee Members

Chair:	Tadashi Teramoto	(Japan)
Members:	Fu Zhong	(China)
	Denny Sacul	(Indonesia)
	Alan Sze	(China Hong Kong)
	Poon Hua	(Singapore)
	Julia Hoffman	(Australia)

---

---

## Notice from APBF2012 Fukuoka Committee

We hope you enjoyed the Happy Summer Night on Wednesday evening. If by any chance you kept a "Happi coat" that is different (like those in the pictures) from the ones we gave to the APBF players here as a gift, please return it to the Hospitality Desk or the Main Office. Those Happi coats were borrowed from our sponsors for the local attendants of the "Happy Summer Night" party and they have to be returned.

Thank you very much for your cooperation. We hope you enjoy the rest of the tournament.

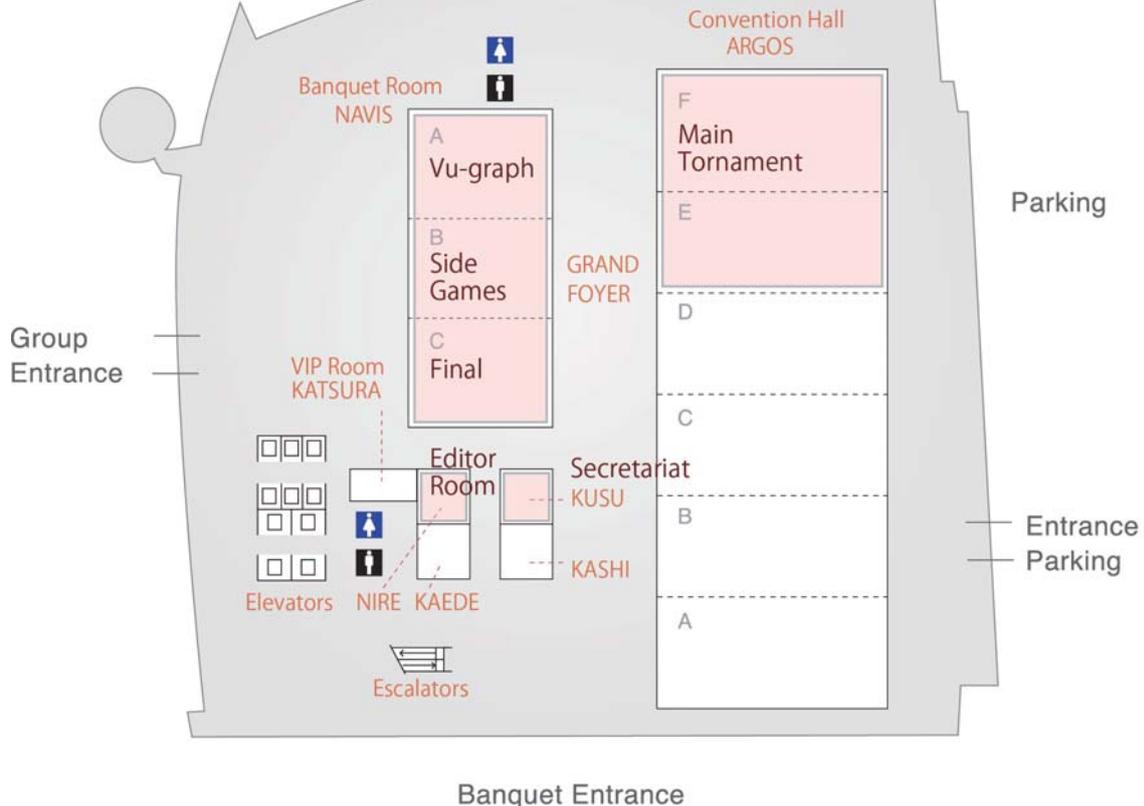

# APBF Congress: General Schedule of Events

APBF Congress Championships			Side-Games	
DATE	TIME	EVENT	TIME	EVENT
8/31 (Fri)	10:00-19:00	APBF Teams Qualifying (RR) (See next page for details)	10:00-17:30	Fukuoka Team Regional (Nintendo 3DS & Wii Cup) (F1/F2) [Open/Δ1000MP]

# Convention Regulations for Side (Pair) Games

*(An explanation for foreign players)*

Unlike the NEC Cup, which is an international event, and the Yokohama Swiss Teams, in which all non-brown-sticker conventions are permitted, the Yokohama IMP Pairs and Asuka Cup are rated as Japanese regional or national events, for which JCBL regulations for domestic events apply strictly. We ask for your compliance with the regulations explained below. If you have any questions about what is allowed, please ask the JCBL staff. Please note that use of unauthorized conventions may be penalized. We thank you for your cooperation.

All side games at the NEC Bridge Festival (the Yokohama IMP Pairs and Asuka Cup) are restricted to "List C" conventions as described below. The use of the Multi-2♦ is strictly prohibited and will be subject to penalty.

## LIST C (Television Nishinippon Cup — Sunday)

### Opening Bids

- 1♣ or 1♦ may be used as an all-purpose opening bid (artificial or natural) promising a minimum of 10 HCP (e.g.: Precision 1♣ and 1♦; Polish 1♣, etc.)
- 2♣ artificial opening bid indicating one of:
  - a strong hand, balanced or unbalanced
  - a three-suiter with a minimum of 10 HCP (e.g., Roman 3-suiter, etc.)
- 2♦ artificial opening bid showing one of:
  - at least 5-4 distribution in the majors with a minimum of 10 HCP (e.g., Flannery, anti-Flannery etc.)
  - a strong hand, balanced or unbalanced
  - a three-suiter with a minimum of 10 HCP (e.g., Roman 3-suiter, etc.)
- Opening suit bid at the two level or higher indicating the bid suit, another known suit, a minimum of 10 HCP and at least 5-4 distribution in the suits.
- Opening notrump bid at the two level or higher indicating at least 5-4 distribution in the minors, 10 or more HCP.
- Opening 3NT bid indicating:
  - any solid suit or
  - a broken minor suit.
- Opening four-level bid transferring to a known suit (e.g., Namyats, etc.).
- Strong opening at the two level or higher, asking Ace, King, Queen, singleton, void, trump quality.

### Responses and Rebids

- 1♦ as a forcing, artificial response to 1♣.
- 1NT response to a major-suit opening bid, forcing for one round; may not guarantee game invitational or better values.
- Conventional responses which guarantee game forcing or better values. May not be part of a relay system.
- 2♣ or 2♦ response to 3<sup>rd</sup>- or 4<sup>th</sup>-seat major-suit opener asking the quality of the opening bid.
- Single or higher jump shifts (including into notrump) to indicate a raise or to force to game.
- All responses to;
  - artificial strong opening bids with 15 HCP or more.
  - opening bids of 2♣ or higher (weak 2s must guarantee 10 opening points: opening points=HCP + number of cards in longest suit).

- All constructive calls starting with the opening bidder's second call.
- Calls that ask for aces, kings, queens, singletons, voids, trump quality and responses thereto.
- All calls after a natural notrump (including those that have two non-consecutive ranges, neither of which exceeds 3 HCP). No conventional responses are allowed over natural notrump bids with a lower limit of fewer than 10 HCP or with a range of greater than 5 HCP.

### Competitive Bids

- Any conventional balancing calls.
- Conventional doubles and redoubles and responses (including free bids) thereto.
- Notrump overcall for either:
  - two-suited takeout showing at least 5-4 distribution and at least one known suit. (At the 4 level or higher there is no requirement to have a known suit.)
  - three-suited takeout (as with a takeout double, at least 3 cards in each of the 3 suits).
- Jump overcalls into a suit to indicate at least 5-4 distribution in two known suits, and responses thereto.
- Cuebid of an opponent's suit and responses thereto, except that a cuebid that could be weak, directly over an opening bid, must show at least one known suit.
- Comic 1NT overcall.
- Defense to:
  - conventional calls (including takeout doubles).
  - natural notrump opening bids and overcalls.
  - opening bids of 2♣ or higher.
- Nos. 5 through 9 under "Responses and Rebids" above apply to both pairs.
- Transfer overcall to show a specified suit at the four level.

### Carding

- All leads and signaling methods are approved except for: a) odd-even signals, b) encrypted signals, c) dual-message carding strategies, except on each defender's first discard, d) any method when the pair using it are deemed to be playing it in a manner which is not compatible with the maintenance of proper tempo.

LIST D (Fukuoka Mayor's Cup — Saturday and Sunday)  
Category 3 of WBF Systems Policy applies

# Welcome

*Yokohama, Japan*

## YEH BROS CUP BRIDGE INVITATION

# APBF Teams RR: HYX CHINA vs Japan well fitted

by Barry Rigal

## Match 10:

The first three boards produced no swing; same contract, same result. Was my co-editor's nightmare of a match with the same contract and result really going to come true? It is worth noting that Furuta, with ♠AKQ876 ♥64 ♦86 ♣1083, opened 3♠ in second seat non-vulnerable while Jong opened 1♠. Quite a difference in evaluation. We had to wait till Board 4 to get a deal with potential for swing:

Bd: 4	North		
Dir: West	♠ J10		
Vul: Both	♥ KQJ862		
	♦ 1054		
	♣ 84		
West		East	
♠ 964		♠ K8753	
♥ 1095		♥ A	
♦ AK3		♦ J986	
♣ QJ109		♣ 762	
	South		
	♠ AQ2		
	♥ 743		
	♦ Q72		
	♣ AK53		

## Open Room

West	North	East	South
<i>Takano</i>	<i>Jingsheng</i>	<i>Furuta</i>	<i>Minrong</i>
Pass	2♦	Pass	2NT
Pass	3♣(♥)	Pass	3♥
Pass	4♥	All Pass	

## Closed Room

West	North	East	South
<i>Jiahong</i>	<i>Ino</i>	<i>Yong</i>	<i>Teramoto</i>
Pass	2♦	Pass	2NT
Pass	3♣(♥)	Pass	3♥
All Pass			

Both Norths got to the same position. Ino, whose vulnerable preempts are closer to standard than his counterparts, let 3♥ go while Jingsheng went after the vulnerable game. Played by South 4♥ is close to the required vulnerable IMP odds were it not for that spade blockage. The defense led clubs, and declarer could not go after spades conveniently because of the absence of entries back to his hand (even if the spade finesse works East can block the suit — not that he would — by covering the ♠J). So declarer played a trump up, hoping it would be ducked. East won and returned a club in both rooms (yes the ♦J might have persuaded declarer to go wrong; East knows declarer rates to have two spade and one diamond honor or vice versa, in either case the ♦J either doesn't cost or might be necessary). Declarer won the second club and drew trumps. East then did

not cover the ♠10, so declarer was home.

Look what happens on best play, though (this is one of the most beautiful hands I've seen this year). Club lead, trump to the ace, club back. Declarer must ruff a club, draw trumps, lead the ♠J, covered all around, then ruff the fourth club. Now the run of the trumps executes a double squeeze in two suits:

	♠ 10	
	♥ 2	
	♦ 1054	
	♣ ---	
♠ 96		♠ 87
♥ ---		♥ ---
♦ AK3		♦ J98
♣ ---		♣ ---
	♠ Q2	
	♥ ---	
	♦ Q72	
	♣ ---	

On the last trump as South throws his small diamond, which defender keeps two spades? If neither declarer overtakes the ♠Q and scores the ♠2. If East keeps spades guarded declarer unblocks spades and leads a diamond, covering East's card, and West can either crash his partner's ♦J or lead low to him to concede the last trick to declarer. If East pitches a spade, West does best to keep two spades and pitch the ♦K. Now declarer unblocks spades, then leads a diamond and ducks East's card. West can overtake and give declarer the last two or duck and give South trick 13!

After all that excitement (at least in the bulletin office, where a two-suit double-squeeze gives the editorial staff a reason to live) HYX led 10-0. Korea GLPD racked up the same game swing and led Shenzhen Nangang 17-2. Both Korea and HYX added to their leads at once.

Bd: 5	North	
Dir: North	♠ 654	
Vul: N/S	♥ AJ72	
	♦ Q3	
	♣ 10986	
West		East
♠ A873		♠ 2
♥ 1098		♥ KQ65
♦ J105		♦ AK9864
♣ QJ3		♣ A4
	South	
	♠ KQJ109	
	♥ 43	
	♦ 72	
	♣ K752	

Open Room

West	North	East	South
<i>Takano</i>	<i>Jingsheng</i>	<i>Furuta</i>	<i>Minrong</i>
	Pass	1♦	1♠
1NT	Pass	2♥	Pass
3♦	Pass	3NT	All Pass

Closed Room

Could (or should) Furuta have bid 3♠ over 3♦, or would that have been a concern about clubs? In the editors' opinion this would show worry about spades: "Do you want to play 3NT opposite a singleton spade?" It would have made life easy for Takano, but as it was he had to play 3NT on repeated spade leads. He ducked twice, won the third pitching hearts from dummy, then had to bring in diamonds — no problem today — and guess whether South's side card was the ♣K or ♥A. Since South had played ♠10, ♠K, ♠Q Takano took the club finesse and went down two. 5♦ wasn't cold in theory but Yong won the spade lead and took the losing club finesse. When a spade came back he ruffed, cashed the top trumps, unblocked clubs, went to the ♦J, pitched a heart on the clubs, then ran ♥8 and claimed when it held. 11imps and 21-0 to HYX. Korea GLPD made 5♦ and defeated 6♦ to lead 27-2.

The HYX lead went to 23-0 via undertricks on an ugly partscore (-150 in one room, -200 in the other) before the storm intensified.

3♥ lost the obvious four tricks, when declarer followed a straightforward line in trumps by leading the ♥K and low to the jack. 4♠ was more testing. The defenders did well by leading three rounds of diamonds, ruffed and over-ruffed. A trump to the king and ace for a club shift saw Yong win his ace and cross to a top spade for a heart to the jack. Then the last trump to dummy to finesse the ♥9 allowed declarer to claim. Carefully done, and 10imps to lead 33-0. After a couple of pushes the one-way traffic continued flowing in the same direction.

I'm a little surprised Takano didn't cue-bid 4♠ over 4♥ (unless there was some minorwood/keycard element

to the bidding, which there doesn't appear to be). In the Closed Room West's 3♥ seems unnecessarily murky but eventually the auction devolved into keycard and it appears East showed the ♦Q — which looks highly dangerous. Slam is not much better than 50% but if trumps are 2-2 you can ruff the spade loser in dummy, so you probably want to be there — particularly since on a non-club lead your chances increase dramatically. And given that Teramoto did lead the ♥J against the slam this emphasizes the point, I suppose. 12 moreimps; 45-0 to HYX.

Meanwhile, Korea bid and made 6NT by West here (the ♠7 lead being fatal to the defense); up 40-10.

Minrong blew a trick in 1NT by putting up the ♥10 on the opening lead of the eight. Otherwise his team could have achieved the unusual symmetry of making +180 in both rooms. It looks as if Ino's double of 2♦ was intended as takeout (as it surely should be) but interpreted as penalties. Even if 2♦ doesn't show diamonds North should be able to double for takeout here: if he has shortage elsewhere he passes and defends 2♦ happily, or passes then doubles when they come to rest in his shortage. There was nothing to the play in 2♦x, of course, and the 8imps to HYX made it 54-0.

A lead problem now. You hold your usual hand of power and quality: ♠7 ♥J1074 ♦Q109543 ♣84 and

when partner opens 1♠ at favorable you respond with a forcing notrump. With your side silent thereafter the auction proceeds to 3NT played by your RHO: 1♠ -P-1NT-Dbl; P-2♣-P-2♠; P-2NT-P-3NT. What do you lead? Furuta led a spade; this was the full story.

On a spade lead 3NT took the first nine tricks. Let he who is without sin cast the first stone. A diamond is only right if partner has three-plus cards in the suit and what is the likelihood of that? Admittedly, he rates to have a 5332 pattern but even so.... Another 11imps to HYX, leading now 65-0. Meanwhile, SHENZHEN NANGANG picked up the same game-swung here. They then bid a couple of 3NT contracts missed in the other room to take the lead 47-40 in our other featured match.

HYX tacked on 5imps more when a somewhat undisciplined game-try by Takano led to his turning a small positive into a small negative. Then well fitted finally got on the board with an overtrick; 70-1 now.

Both tables reached the grand slam and both received the club lead rather than a deadly heart. You win in hand and have a choice: do you draw trumps and play diamonds from the top, guarding against West having length, or do you play the ♦A and ruff a diamond after one top trump from hand, which guards against East having length? In favor of the first line is that you don't lose to 5-0 diamonds with East (in which case there might have been a Lightner double). In favor of the second line is that if diamonds are 4-1 you may survive East having two singletons or a doubleton spade without the J10. Suffice it to say that one line works, one line doesn't, and both our declarers followed the unsuccessful line. In fact, Fu Zhong and Ron Klinger were the only two declarers in the open event to bid and make 13 tricks and Esther Sophonpanich in the Seniors made it three players.

Korea went down in the grand slam while the Shenzhen team stopped in six; 61-40 now.

Well fitted finally scored some seriousimps (yes, too little, too late) here.

4♥ was destined to fail on normal defense but when Minrong tried the ♣A at trick one that presented declarer with a club trick and gave him a road map as to how to play spades. Furuta needed no further help and wrapped up his +420. In the other room on a top diamond lead Ino did not overtake to play spades (which might have been necessary). The defenders continued diamonds and declarer ruffed and played on spades to build the discards he needed to make +140. The 7imps made it 70-8 now.

There was one more big swing to come and it went in the direction almost all the other ones had.

In the Open Room a diamond to the ace and a club shift to the king meant that declarer was playing for overtricks. He made +630 without breaking a sweat.

In the Closed Room, where Teramoto had shown a trap pass of 1♦, Yong made a nice play to the first trick by putting in the ♦10. Declarer won, took a heart finesse and East got out with the ♣J, marking the high cards for declarer. The best he could do, though, was to win the ♣K, finesse in spades, then cash one top honor and exit with a top diamond to East. Back came the third spade to knock out South's entry, so Teramoto won and played two rounds of diamonds. When West won the ♦9 and played a heart through, that set up the defenders' fifth winner before declarer could come to hand to cash his long diamond.

That made it 82-8, at which point the set mercifully drew to a close. Meanwhile, Shenzhen cemented their win in somewhat fortuitous fashion, making 4♠ here and defeating 4♥ to defeat Korea GLPD 19-11.

In the Open Room Bubble Ho, as East, made the sort of "interference" bid that usually helps the opponents more than your side. You rarely have a good save

with such poor suits and the information you about your shape usually ends up helping the opposing side play or defend more accurately than they would otherwise. That said, C C Mok really had absolutely no reason to get involved in the auction. With a hand far more suited to defense than offense, flat shape, only three trumps, and virtually no values or shortness in partner's suits, the 3♣ bid does almost nothing to consume bidding room; plus, you really do not want to encourage partner to take a save. Zhang Yizhuo wisely chose to double 5♣ and although N/S rate to make 4♥ easily enough they were never going to bid slam — which depends on the heart finesse which works today — and can easily collect more than the value of their game — or their slam — on defense, provided they don't crash their diamonds or get their trumps tangled up. Li Rui had the sort of lead problem we'd all like to have on defense: which ace to lead (or under-lead). He chose the ♥A, not a concern since it only gave declarer a useless pitch, but then made a serious error by switching to ace and another spade. That gave Mok three pitches (the ♠KQ and ♥K) for diamond losers. Mok now called for a low club removing Zhang's reentry so the defense could no longer untangle their diamond tricks. Zhang exited with a spade. Mok pitched a diamond, then called for the ♣J. Li won the king and got out with a heart, Mok pitching a second diamond. The ♠Q was ruffed and overruffed, the defense trading a trump trick for a diamond trick, and now all Mok could take were his two remaining trumps. Down 4, -1100, and it could have been -1400.

In the other room Mark LaForge and Andy K O Leung bid unopposed to 4♥. Wu Yuwei led the ♠K. Leung won the ace, unblocked the diamonds, crossed to the ♣A, pitched a spade on the ♣K, passed the ♥10, drew trumps, crossruffed three more tricks and conceded a spade at the end for an easy +480; lose 12 imps. Pan-China 12-0.

The next board was a push (eight tricks in 1NT, nine in 3♦) and on the following two boards the teams traded overtrick imps, first in 3NT and then in 4♠. Still Pan-China, 13-1.

If your 1NT response to a major is not forcing Leung's choice of 2♠ in the Closed Room looks the lesser of evils compared to Zhang's choice of 1NT in the Open Room. Even if 1NT is only semi-forcing (as it appear to be here) bidding 2♠ uses up valuable bidding room for the opponents, forcing them to balance at the three level, while 1NT risks your side ending up playing there going down when eight or more tricks are easy in spades. Of course 2♠ might encourage partner to bid too much but how disappointing can your dummy be with a ruffing value and two possible side sources of tricks? Anything might be right, but 2♠ seems a slightly better choice (despite BR's opinion to the contrary).

Not to toot our own horn, but in the Open Room Zhang Yizhuo was left to play in 1NT. Mok got off to the best lead of a low diamond to dummy's ace, and

Zhang played a heart. Ho rose with the king and switched back to diamonds, Zhang pitching a spade on the third round. Mok ducked the next heart, won the third, and switched to a low spade. Zhang tried the king but Ho won the ace, cashed two diamonds, switched to a club, and the defense had the rest; down four, -400. Lest anyone think that -400 is par for N/S (that E/W can make 3NT their way) please note that a spade lead from either side beats that contract.

In the Closed Room Leung led the ♥Q against Sheng Ming's 3♦. There's really not much to the play and Sheng ended up losing a spade and two diamonds for +130. That was 7 imps to Spark, trailing now 13-8.

In theory 3NT can be set five tricks (heart to the ace, diamond through taking three tricks and ending with West on lead and now a spade through to take four spades and the last diamond) but Ho led the ♠A and now declarer had eight tricks before the defense had more than five (now the diamonds block). In practice Ho continued with a second spade and Li cashed out for down one, -50.

Against LaForge's 4♣ Sheng led the ♥6 (3<sup>rd</sup> and 5<sup>th</sup>) and Wu ducked denying declarer a late dummy entry

should he need one. LeForge drew trumps and passed the ♠8 around to the nine. When a diamond came through LaForge tried the king and when it lost to the ace he saw the handwriting on the wall and claimed down two, -100; 2 imps back to Pan-China, leading 15-8.

On the next board Pan-China picked up another overtrick imps in 3NT. There followed three push boards and then another imp to Pan-China on Board 11 when they made two overtricks in 4♠ while Spark made did the same in 3NT. Pan-China now 17-8.

Mok's heart bid in the Open Room likely contributed to Zhang's decision not to compete over 2♦. Zhang led the ♠J to the ace and Ho played ♦A, ♦9 (J, Q, A). Li now cashed the ♦10 and Ho claimed eight tricks (four spades, three diamonds and a club) for +90.

In the other room Leung got the heart suit in first and, although Wu bid 1NT behind him, competed to 3♣ over E/W's 2♦. LaForge received the ♠A from Sheng who continued with a spade to the queen. Wu switched to a diamond and when LaForge ducked he was home with nine tricks, losing just two spades and one trick in each pf the minors for +110. That was 5 imps back to Spark, who closed to within 4 at 17-13.

The next board was another push when both sides made +140 in heart contracts. Then.

Ho's 3♣ game try looks aggressive, what with a double behind her, her partner's raise being weak (say 4-7), and both opponents competing. Consider that if her partner held ♠xxx ♡Jxx ♦Kxxx ♣QJx or ♠xxx ♡10xx ♦Axxx ♣Kxx, both hands that would rate a raise to game, she would rate to go down one or two tricks in each case. Zhang led the ♡10, ducked to the king, and Ho ducked a club to Li, who played ace and a third heart. Ho won dummy's jack and played a spade, guessing to insert the ten. Now she had to lose two clubs, two spades, and a trick in each in the other two suits for down two, -100.

In the other room it was N/S who took the aggressive actions, but this time it paid off. Sheng led the ♠A, Wu following with the six, and Sheng continued with the ♠10 to the jack. Whether E/W's signals were standard, inverted, or of some other type (Foster Echos?), West needed to discourage a spade continuation. (Not that any shift beats 3NT, though clearly a heart switch works best.) LaForge now played on clubs, Sheng winning the third round and clearing the spades. LaForge won the king, crossed to the ♦A, cashed dummy's two clubs, and played a diamond. Note that he now had a complete count on the hand: Sheng was known to have five hearts from

his opening. He followed to three rounds of clubs. And he had to have started with his actual spade holding since if West had the ♠Q he would have covered dummy's jack at trick two. So Sheng had to have a singleton diamond and LaForge had seen it when he crossed to the ♦A. So the diamond finesse of the ten was proven. But what would work especially well was that if he instead played the ♦K (which he did), cashed the ♥A, and got out with the ♦10 West had to concede the last trick to dummy's ♦J. Making three, +400, was 7 imps to Spark, who took the lead 20-17.

The next three boards were all pushes (including both teams bidding 6♦ and making seven on Board 16), so on to Board 18.

Looking at all four hands it is clear that things are breaking badly for E/W in 2♠ and it's no surprise that N/S were content to defend. What is surprising is that in the Open Room Li chose to make such a thin double of 2♠ when Mok was known to prefer hearts to spades and to have at least an invitational hand opposite a weak 2♥ opening. But Zhang had him covered. Li led his ♠J to Mok's queen. Mok led a diamond to the jack and a heart back to the king and ace. Li continued with the ♦Q, covered by the king and ruffed. Zhang shifted to a low club and Mok rose with the ace to play a trump to the king and ace. Zhang now played the ♣10, intending to win the third round and get out with a heart. But the ♣10 held and when he cashed the ♣Q Li overtook and played a fourth club, ruffed and overruffed, and Mok claimed down one, -100.

Wu's 3NT was no great bargain either. However, we did get to witness one of the rarer bridge events when LaForge led a fourth-highest ♦3 and dummy's five won the trick. Wu continued, spade to the queen, diamond to the jack, ♠K, ducked, ♦K, heart to the king and ace, claim nine tricks for +400. That was 11 imps to Pan-China, who regained the lead 28-20.

Board 18 was a push when both teams scored up an overtrick in 3NT, but Pan-China picked up 2 additional imps when they played 3NT making five while Spark took 11 tricks in 5♣ on the final board. Pan-China won the match 30-20, 17-13 in VPs.

Ever wonder how all those boards get made?

# APBF Teams RR: SHENZHEN NANGANG vs Australia KLINGER

After repeated heart leads 4♠, the best game on the cards, was awkward. Declarer could do no better than ruff, draw trumps, and run the ♦Q. When it lost South could draw declarer's last trump and cash a heart for down two.

By contrast, 3NT appears to be down immediately on a hostile heart break but pretty good otherwise. After a club lead it looks clearly right to win the ♣A, cross to the ♠A and test clubs. Whether they split or not, you can now test spades and fall back on running the ♦Q as the last resort. Even though diamonds are blocked, you have nine tricks (three in each of the three key suits) if the diamond finesse works. Wang saw things differently. When Klinger dropped a neutral ♣4 at trick one declarer opted for deception and ran the ♦Q at trick two. Bingo! South won and pressed on with clubs and declarer had 11 tricks.

As an aside, was that club lead right on the auction? The one suit East surely had is clubs, even though he had shown four hearts as well. And might Klinger have been able to afford the ♣5?

In 3♠ Braithwaite received repeated clubs leads (quite a view by North on lead). He ruffed, knocked out the ♦A, and now instead of drawing trumps played two more rounds of diamonds. North ruffed and thoughtfully played a top heart to dislodge dummy's entry and break up the impending endplay on himself and declarer was left with a diamond loser at the end. Obviously, West could have done much better in a number of ways, but it hardly mattered since Klinger quite reasonably led a top heart against 4♠ and declarer simply drew trumps and cleared the hearts with the ♦J as an inevitable entry to the suit. It was 21-0 to Shenzhen and there was worse to come.

Braithwaite was at the helm in a second delicate contract and received the diabolical lead of the ♦J from Shi. He won and cleared hearts rather than going after spades. South won and shifted to clubs, solving one guess. Declarer put in the jack, passed the ♠10 to South's bare queen, won the club shift in hand and led a second diamond to the nine. Given the earlier play, this assumed North had overcalled on a hand with just the ♠A and ♦J — but we've all seen worse. South won the ♦10 and the defenders had five tricks. Since 1♠ had gone four down (why no reopening double by West you may well ask) that was 7 imps to Shenzhen instead of 9 the other way; credit Shi and that opening lead. We can all find winning lines but none of them are guaranteed by any means.

It's hard to argue with success too much though this editor has a reputation of being able to argue with anyone and anything. Still and all, that 2♦ opening

seems only marginally less bizarre than the 3♥ bid in the other room; does nobody pass hands with no clear-cut action any more? And that double of 3♥ would not be my first or second choice. Klinger's 3NT bid worked extremely well so perhaps one should say that it was somewhat reminiscent of the old joke about the Western Cue-bid. That shows a solid suit and asks for a stopper in the opponent's suit. The Polish Western Cue-bid shows a stopper in the opponents suit and asks if partner has a solid suit.

Since 2♠ started with nine top tricks via the diamond ruff and made them, it was up to E/W in the other room to convert their fourth successive plus result by defeating 3NT. You may or may not like East's opening lead of the ♥A (I hate it but I'm running out of bile to pass along on the current deal) but once you lead it and get discouragement it's really not very inspired to shift to a top club as opposed to leading a low club. Partner has no heart honors; what does he have? If he has the ♣A you need to lead a low club right now in case the actual lie of the cards exists. Plus 600 and it was 28-10 now for Shenzhen.

On the next deal the two Souths held ♠74 ♥A94 ♦AQJ963 ♣105 and opened 1♦ at unfavorable. Both heard 1NT to their left and Beauchamp, who had shown diamonds, passed it out when it came back to him while Li, who had not shown diamonds, tried 2♦. Now Braithwaite, the notrump overcaller had to decide if he should re-open with a double (would that be take-out for everyone?) with a decent 3=3=2=5 hand. He didn't, and both partscores were easy to make — with 2♥ a likely make for the Australians had Braithwaite doubled 2♦. That made it 33-10.

The Klinger team were comprehensively outbid again here when Wang's wafer-thin 1♦ opening stole the pot. Yes, Klinger could or should have doubled at his first or second turn but it isn't clear that his side would have gone plus anywhere. In 2♠ on a heart lead declarer had four red-suit winners, three spades in hand, and two ruffs for a comfortable +140 while 1NT on a club lead wrapped up +120 when declarer negotiated the diamonds easily enough. It was 39-10, and it was surely time for the Klinger team to have a little bit of luck go their way.

In the Open Room N/S never got close to slam. In the Closed Room South used Forcing Stayman and moved past 3NT to suggest delayed support. North cue-bid, showed his keycards and trump queen with no kings, and could then have the fun of playing the slam. On a spade lead the defenders were ahead of the game. Declarer could not duck a heart so he had

no choice but to play to ruff a spade in dummy after drawing a couple of trumps and West could over-ruff. This is probably the line you would follow on a red suit lead. Distinctly unlucky, but Klinger would take the 11 imps and move on, down 39-21.

For the second time this set East gained by opening 1♦ with a singleton and picking off his opponent's suit — and yes, there oughta be a law against it. Here 1♦ went down four when Beauchamp did well to lead trumps. Klinger drew three rounds of trumps and then shifted to hearts to get his ruff, followed by a club through. Wang put in the ten, endplaying Beauchamp to lead a spade, which East guessed right.

In the other room 3NT by South was always going to make with the club honors right. A heart lead might have made declarer sweat a little more, but a club lead and heart shift saw declarer duck the trick to West and effectively endplay him. A heart back gave declarer his ninth trick, so Shenzhen led 44-21.

"...plan for world domination almost done..."

I'm not sure where you would say the luck went on the following deal.

Pass	4♠	All Pass	3♣

Klinger showed a much better appreciation of his cards than his counterpart since Shi decided he could work out better than his partner what that player held and jumped to 4♠ rather than try to explore the hand. (Incidentally, which three-level bid best describes your hand? One editor believes 3♦ is right, a second 3♥, and no doubt there are many who would vote for 3♠). In 6♣ Klinger, who had raised clubs immediately rather than find any of the delicate three-level bids, ruffed a diamond, crossed to a top heart, ruffed his last diamond, unblocked the ♣A, then came to a spade and found the bad news in trumps. He could lead a spade up now and dispose of his heart on the last spade to get out for down one.

Against 4♠ the defenders started the force with a diamond lead. Declarer won and tried unluckily to cash the ♣A and lead up to the king. East ruffed and back came a diamond, so declarer ruffed, tested two rounds of trumps to get the bad news, and could do no better now than play on hearts. When the

defenders won they could tap him out and he never scored the fourth heart. It may not be so easy to spot but the right line after the club break comes to light is simple and effective. Cash the ♥A, ruff a diamond, take the ♥K and give up a heart. Whichever of the defenders wins the heart cannot stop you from ruffing clubs safely in hand in due course and trumping a heart with the ♠K to score all your trumps in hand en passant. No swing anyway, still 44-21.

Whether that was lucky or unlucky for Klinger (I say bad luck myself since the slam was a pretty good one) on the next hand they caught a break when they failed to lead or shift to their long suit on defense after yet another Precision diamond stole the opponents' suit. In essence Shenzhen found their opponents had turned a no-play game into one that hinged on a finesse which lost. But Shenzhen still gained 3imps for the extra undertrick earned by the accurate defense in the other room. 47-21 now.

Braithwaite was not particularly tempted to balance in passout seat since his partner had had two chances to come into a Multi auction and had not done so. 2♠ played extremely well, declarer bringing home both minors for one loser. But that was not enough since 3♥ in the other room, reached after a frisky re-opening double, was lucky to escape a penalty double. And the favorable lie of the cards for N/S in 2♠ proved expensive for E/W in 3♥ at 100 points a pop. Down 300 meant 4imps to Australia,

trailing 47-25.

The Open Room auction was simple and reasonably effective but maybe South might have raised to 3♠ (and is it *really* necessary to distort such a shapely suit-oriented hand into a 1NT opening). Klinger must have feared the worst when 2♠ collected +170, but his teammates did a fine job stealing the spade suit — just retribution for all those missing diamond suits. 3NT on a club lead had seven tricks and no more. Klinger had 7 imps to trail 32-47. The set ended 49-35, a 17-13 win for Shenzhen, but each side would look back with regret on that giant swing out that could have been one in the plus column.
